TO TAKE ADELB
TO TAKE ADELBPlans Made For Chicago
Trip; Hanson, Talks on
"Faith" at Luncheon.

A special train will be run by the Adels from El Paso to Chicago in June for the members to attend the convention of the Association of Advertising Clubs of the World. This was decided upon at the weekly luncheon of the Adels, held Wednesday at the Hotel Sheldon. M. P. Carlson was appointed manager of the "Adels to Chicago" campaign. Valley products, moving pictures of El Paso and the valley, and book literature will be taken on the special.

Visit "Made in El Paso" Show. Following the luncheon, the members went in a body to Pioneer plaza where, on the McClintock company signboard, a big printed sign advertising the convention was put in place. The members later visited the "Made in El Paso" exhibit.

Rev. Miles Hanson delivered the principal address at the luncheon. His address was on "Faith as an asset in business." Caution, carefulness and accuracy in advertising was advocated in the address. Mr. Hanson was tendered a vote of thanks following his address.

The Adels, on suggestion of H. R. McClintock, adopted a certain day on which all of the members will pay their bills. It was decided to fix the 15th of the month as the date and all of the bills will be notified to pay and asked to cooperate in the movement.

During 1935, meetings of the Adels will be held once every two weeks instead of weekly, as has been the custom.

Bob Krakauer Does a
"Jay Walk," Fined \$1

Robert Krakauer, first vice president of Krakauer, Zerk & Moyer's, and president of the chamber of commerce, holds the distinction of being the first El Pasoan to be arrested for "jaywalking" under the new traffic ordinance.

Mr. Krakauer was arrested Wednesday morning about 10 o'clock by Officer J. E. Caplinger, as he was crossing Oregon street, going from the postoffice to the Kelly & Pollard drug store. He asked the damages and was told that the cost was \$100 for the first offense. Mr. Krakauer promptly paid his fine to Officer Caplinger and went on his way to the "Made in El Paso" exposition.

THIRSTY DOUGLAS DRINKS
IN AGUA PRIETA, SONORA

Douglas, Ariz., Jan. 12.—To appease the thirst of Douglas residents, a couple of Americans have opened an establishment in Agua Prieta, Sonora, which was recently declared "dry" by the Carranza garrison commander. The ban was lifted, however, with the reservation that no member of the Mexican military be served with liquor.

At this place it is necessary to buy something to eat in order to drink. In other words, liquor is served only with meals. It is thought, however, that stock sandwiches will always be available.

CARRANZA TO
GRAB JOHNSON"First Chief" to Arrest the
Negro Heavyweight When
He Lands in Mexico.

Jack Johnson, heavyweight champion of the world, will be seized the moment he lands at a Mexican port, provided that port is held by Carranza troops. Unless he can show passports from the American state department he will be held pending orders of American authorities.

Johnson is expected to sail from Buenos Ayres, Argentina, for either Veracruz or Tampico on his way to Juarez, where he is scheduled to fight Jess Willard on March 6 for the heavyweight championship of the world. Both Tampico and Veracruz, as well as Matamorras, are held by Carrancistas. Johnson cannot come to this country, as federal indictments stand against him charging him with bail jumping.

Fight Will Fill Villa's "Warbags." The move to detain Johnson has been taken by Andres Garcia, Carranza consul here. He has sent a telegram to Carranza in which he calls attention to the fact that Johnson is a fugitive from justice and that the Juarez fight will go to swell the Villa war chest. Therefore, the telegram concludes, "I suggest that, unless he shows passports from the United States government, he be detained awaiting the pleasure of the United States government."

This telegram has been sent to Carranza at Veracruz and assurances have been received that it will be acted upon favorably.

The campaign against Tampico will, in all probability, decide whether or not the fight is to be held. It is reported that Villa is taking personal charge of directing the campaign. Should his forces capture the port, Johnson will enter Mexico through Tampico.

F. N. HALL SUES TO RECOVER
\$7500 FROM PURIFIED OIL CO.

F. N. Hall has brought suit in the first district court to recover \$7500 from R. C. Chappell and W. D. Corbin, alleged organizers of the Purified Oil company, capitalized at \$15,000. According to the petition the company was organized in the spring of 1911 to purify oil by a new process. It is alleged that a contract was drawn up guaranteeing the stock to pay 20 percent, but if it did not pay that dividend the defendants would surrender the stock and pay 8 percent on all monies paid out by the plaintiff. The plaintiff alleges that he and C. L. Vowell subscribed \$2500 to the enterprise but that after the money was paid in defendants refused to sign the contract.

and near Petros, marked the principal points today where desperate conflicts are reported to be raging. For six days the Turks have been making a valiant effort to rally their retreating forces and, aided by a garrison from Erzerum, have been making a desperate fight in view of the Russian reports of their recent crushing defeat.

The latest Petrograd official communication says the fighting at Karabagh is turning in Russia's favor, but both armies are fighting with the hands of deep snow and bitter cold. Private Petrograd dispatches say the Turks show no signs of weakening.

German Capture 1700 French.

German victories in several engagements on the western front are announced in today's statement from the Berlin war office. It is said that the allies were compelled to evacuate the Belgian coast in the neighborhood of Neuport and that attacks were repulsed at other points, with the capture of 1700 French in one instance.

On the eastern front there are no developments of consequence. The statement says in the north the war fierce artillery duels took place in the neighborhood of Neuport. They resulted in the evacuation of the enemy's trenches at Palsburg, a suburb of Neuport.

The enemy's attacks near the canal of La Bassée have been finally repelled.

Two Positions Taken.

"French attacks at La Boisselle and the hill of Touvron were repulsed. Tuesday's unsuccessful attacks on the hills near Crony were followed up by a German counter attack which ended in the complete defeat of the French and the clearing of the hills northeast of Crony and north of Crony. Our troops took possession of two French positions and captured 1700 prisoners, four cannons and several machine guns.

"An attack by French sappers in the neighborhood of St. Mihiel has been successfully repulsed. Our troops took possession of the hills north and northeast of Nomeny."

French Artillery Is Busy.

Severe winter weather from one end to the other of the battle line in France hindered military operations Tuesday, according to the announcement given out this afternoon by the French war office. The French artillery showed some activity, notably near Soissons and between Reims and the Argonne but no decisive results were attained.

The fighting northeast of Soissons continues with severity. It is evident that large forces of infantry have been engaged. The French retain some of their positions, but were compelled to relinquish others.

Admit Repulse Near Soissons.

The announcement follows in part: On the line to the northeast of Soissons the fighting about 2000 yds. continued with great severity during all the day of January 12. The Germans brought very considerable forces into the engagement. We maintained our position on the crest of the hill to the west of 'Spur 122.' To the east our

troops were obliged to give up ground.

The fighting here continues. "In the region of Souain the advance position covering the block house located to the north of the Beauséjour farm is still in our possession and we have here set up a trench distant 60 yards from the German trench."

Japan has arranged for a treaty of commerce with Bolivia. She will endeavor to obtain a portion at least of Germany's export trade with Bolivia and increase her markets generally with South America.

GERMAN SAILORS BOARD FREE
ON SHIPS IN NEW YORK PORT

New York, Jan. 12.—German sailors on ships interned at Hoboken on account of the war may remain on their ships until the end of the war, getting board and lodging free. Nearly 2000 of them on 14 ships were Tuesday given their discharge papers with the alternative of accepting the free board proposition or of entering into new contracts, at greatly reduced wages, with the North German Lloyd shipping-American line. About 2000 signed the contracts at wage reductions of 50 percent or more.

Washington, D. C., Jan. 12.—Louis Gathman, who claims to be the inventor of the high explosive shells Germany is using in her monster guns which sweep away the defenses of Liège and Antwerp, told a majority of the senate committee on expenditures in the war department today he had been endeavoring to interest ordnance officials of the American war department for many years, and had made no effort to give his invention to foreign governments until it had been repeatedly refused by American army officers.

He charged that the facts had been suppressed by the ordnance official.

GRAND JURY INDICTS
OCHOA ON TWO COUNTS

Victor L. Ochoa, charged by Recardo Papapilla, an Italian, with theft by bail of \$300, has been indicted by the grand jury on two counts. The first count charges him with theft by bail of property over the value of \$50, and the second, with conversion of property over the value of \$50. His bond was fixed at \$2000, which was given.

Ochoa is charged by Papapilla with having accepted \$300 of American money to be exchanged for Villa money, and with refusing to make the change or return the money. The preliminary hearing was held Friday afternoon, when Ochoa was bound over to the grand jury on \$1500 bond.
